Dear Graduate,

Congratulations on your completion of the **Linux Professional Institute LPIC-1** certification, a part of the world's leading credential program for Linux and Open Source technology. Enclosed, you will find your certification card and a certificate which is also downloadable from your account page. You now have access to the certification logo for your professional use. Additional versions of the logo and details on acceptable uses are available at [lpi.org/logos](http://lpi.org/logos).

As an organization, Linux Professional Institute strongly encourages you to continue your pursuit of advanced and complementary skills and credentials. You can learn more about our full certification roadmap at [lpi.org/certifications](http://lpi.org/certifications). In order to support your learning efforts, we created a learning portal at [learning.lpi.org](http://learning.lpi.org) with educational materials and a list of recommended books which should aid you in your studies.

Interested in participating with your community? Share your thoughts with everyone at [discuss.lpi.org](http://discuss.lpi.org). Or, learn more about our community and volunteer programs at [lpi.org/community](http://lpi.org/community) and discover how you can benefit from them while helping others learn about, and understand, the value of open source.

Lastly, the status of this certification remains active for five (5) years. After this time, your achievement continues to be publicly acknowledged but the status of the certification is changed to inactive. The active status can be maintained through one of three options. First, you can retake the exams before your status changes to inactive. Second, achieve the higher level certification of LPIC-2. The final option is to become a formal member of the Linux Professional Institute. The membership program details can be found at [lpi.org/member](http://lpi.org/member). This is a new program, so check back regularly and let us know how we can improve it by sending an email to [membership@lpi.org](mailto:membership@lpi.org). By becoming a member of the Linux Professional Institute, you will also be able to shape the work of the organization and help choose new board members.

Welcome to the Linux Professional Institute community.

Best wishes,

A handwritten signature in blue ink, appearing to read "G. Matthew Rice".
